AI DONATION

Problem ??

- Donors often lack charity on where their money makes the most impact

What is AI Donation?

- Uses real time data and AI to track active campaigns, prioritize urgent needs and optimize fund allocation

How it works

- Allocate funds proportionally to the top 3

Impact Transparency

- Funding progress for each campaign is tracked and displayed visually

Track my transaction

01

Security

- Every donation is permanently recorded on the blockchain.
- Each user's data is protected by encryption
- Builds donor trust through full traceability

02

Transparency

- All blockchain transactions are publicly viewable.
- Personal identities are protected (only displays unique wallet IDs), not real names, maintaining privacy while keeping the process open.

03

Blockchain

- Immutable & transparent donation records
- Prevents data tampering & fraud
- Builds donor trust through full traceability

REAL-TIME TRACKING

"Your Donation Journey"

Track the progress of your donations and see the impact you're making.

01

Real-Time Tracking

- Keeps donors informed past donation
- Boosts engagement
- Encourages recurring donations -donors feel more involved and informed

02

- Live campaign progress updates:
 - 1.Current percentage progress
 - 2.Timeline view of campaign activities
- view timelines uploaded by NGOs
- Instant receipt download for personal use

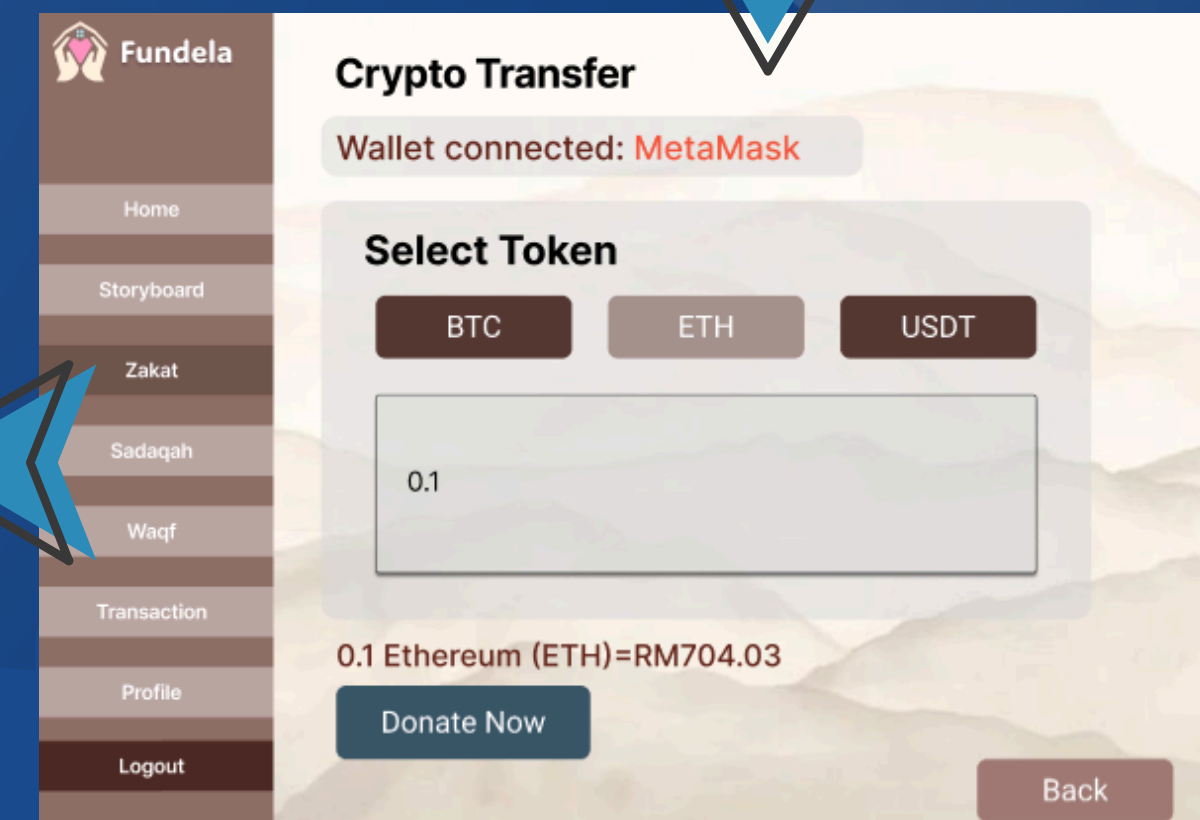

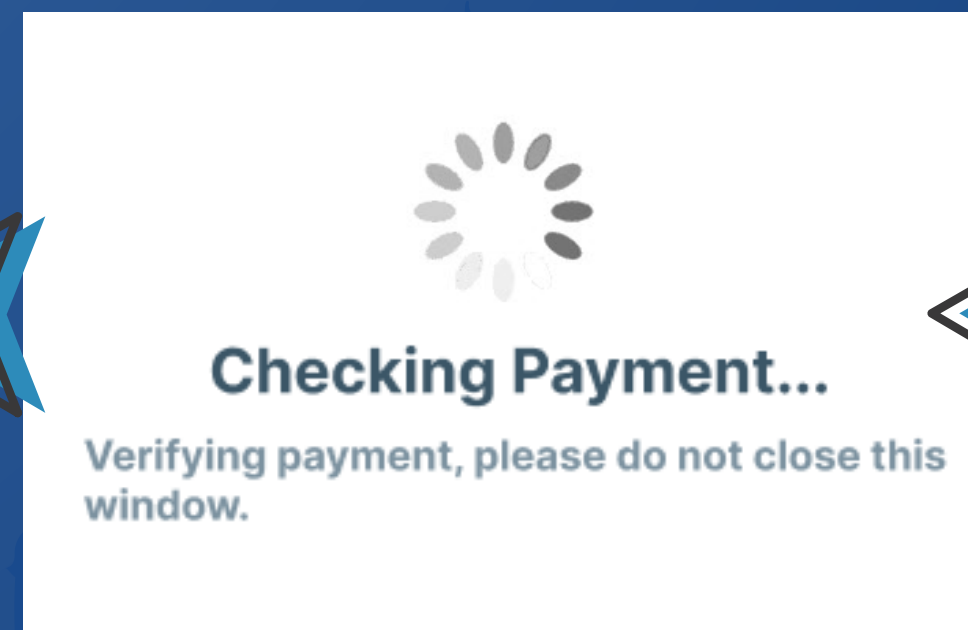

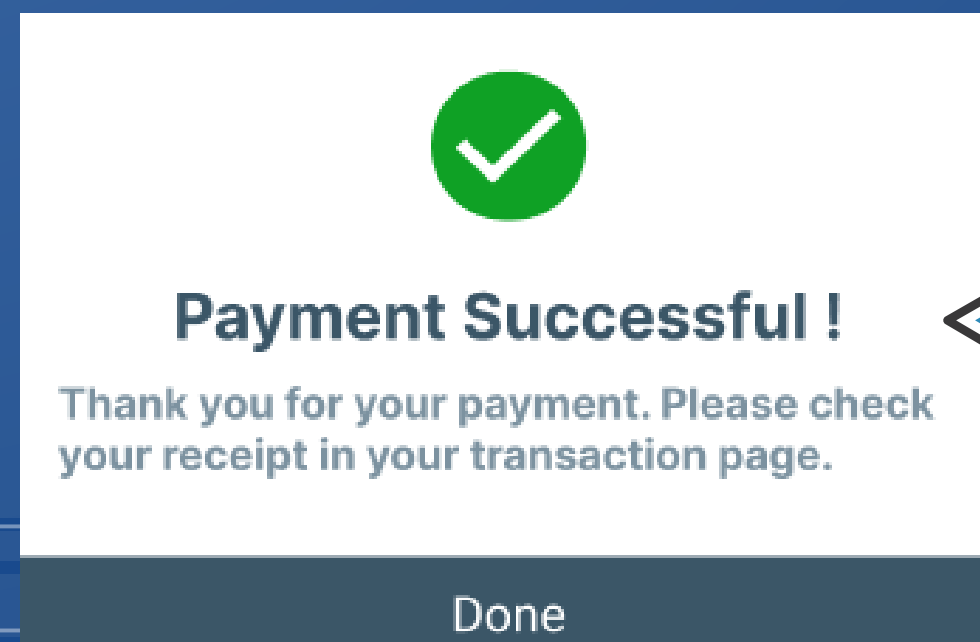

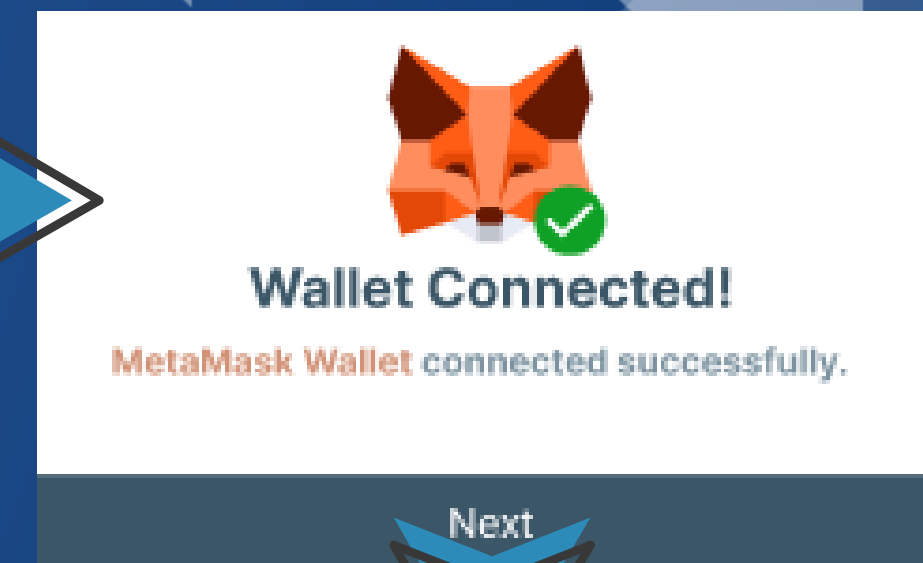

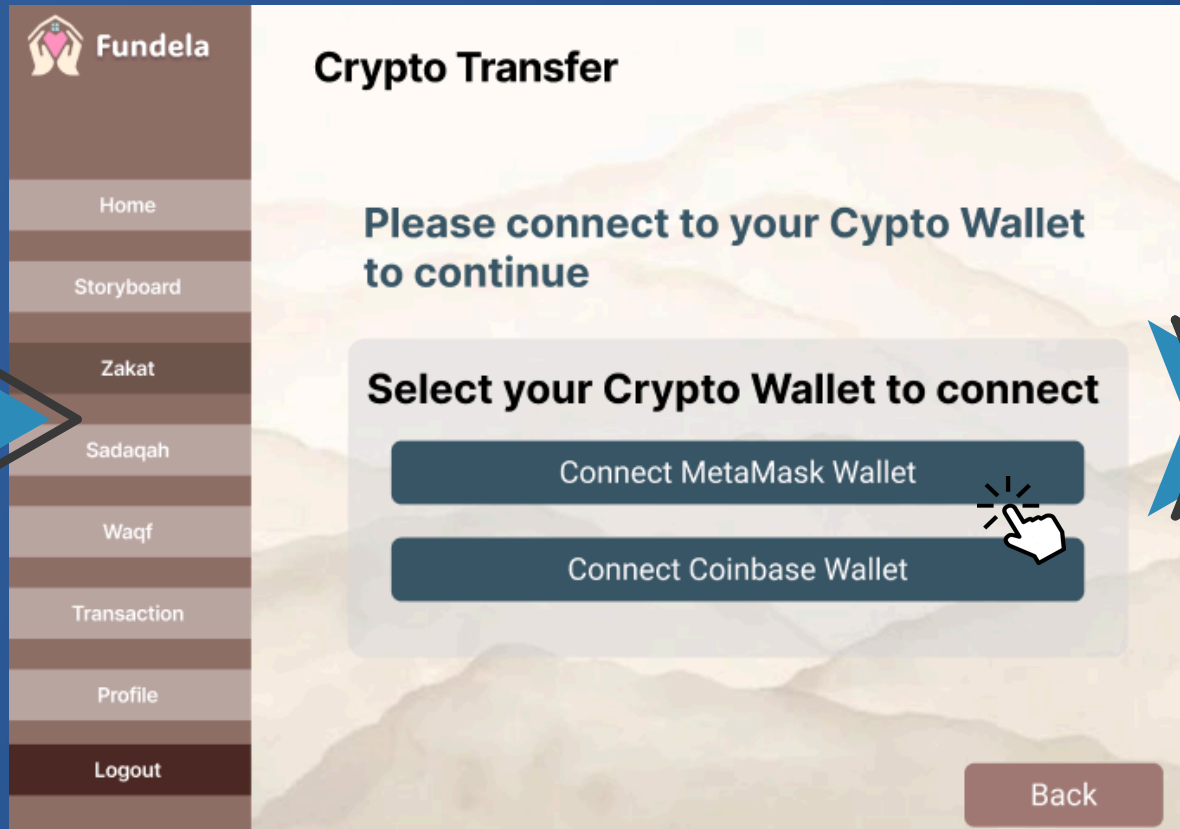

DIGITAL CURRENCIES

Select your payment method

QR Payment

Crypto Transfer

Online Banking

DIGITAL CURRENCIES

Why Use Crypto Transfer?

GLOBAL ACCESSIBILITY

- Donate without needing access to traditional banking systems.
- Helpful for international donors and diaspora communities.
- Making donations faster and more inclusive.

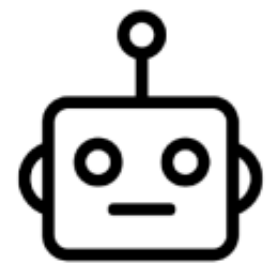

LOWER TRANSACTION FEES

- Reduce the high fees often charged by banks and payment platforms.
- Offer minimal transaction costs.
- Donation goes directly to the intended cause, without significant losses.

TRANSPARENCY & TRUST

- Recorded on a public blockchain.
- Fully traceable and tamper-proof.
- Builds donor confidence by showing how their funds contribute to campaign progress.

AI FRAUD DETECTION SYSTEM

Verify Campaign With AI...

- ☒ Location/address is valid
- ☒ Campaign description is appropriate
- ☐ Documents and signatures match
- ☒ Organization status is verified

Suspicious activity detected. Please review the submission.

Back

- **Automatically verify** uploaded documents (signatures, forms)
- Verify authenticity
- **Rejected** if there is any **mismatch** or **suspicious** content
- Re-evaluate after corrected documents are reuploaded
- **Prevent fake** campaigns and **build trust**

DONOR PREFERENCE SYSTEM

- Machine Learning model **recommends** the **most relevant campaigns** to each donor
- Learns from donors' **past behavior**, **donation history**, and **preferences**
- Matches donors with campaigns they are **more likely to support**

DATA ANALYTICS & VISUALISATION TOOLS

Campaign Donation Live Analytics

This feature allows admins to monitor real-time donation trends across various campaign categories. Each line in the graph represents a category, with the X-axis showing timestamps and the Y-axis showing the number of donations received.

Campaign Performance Dashboard

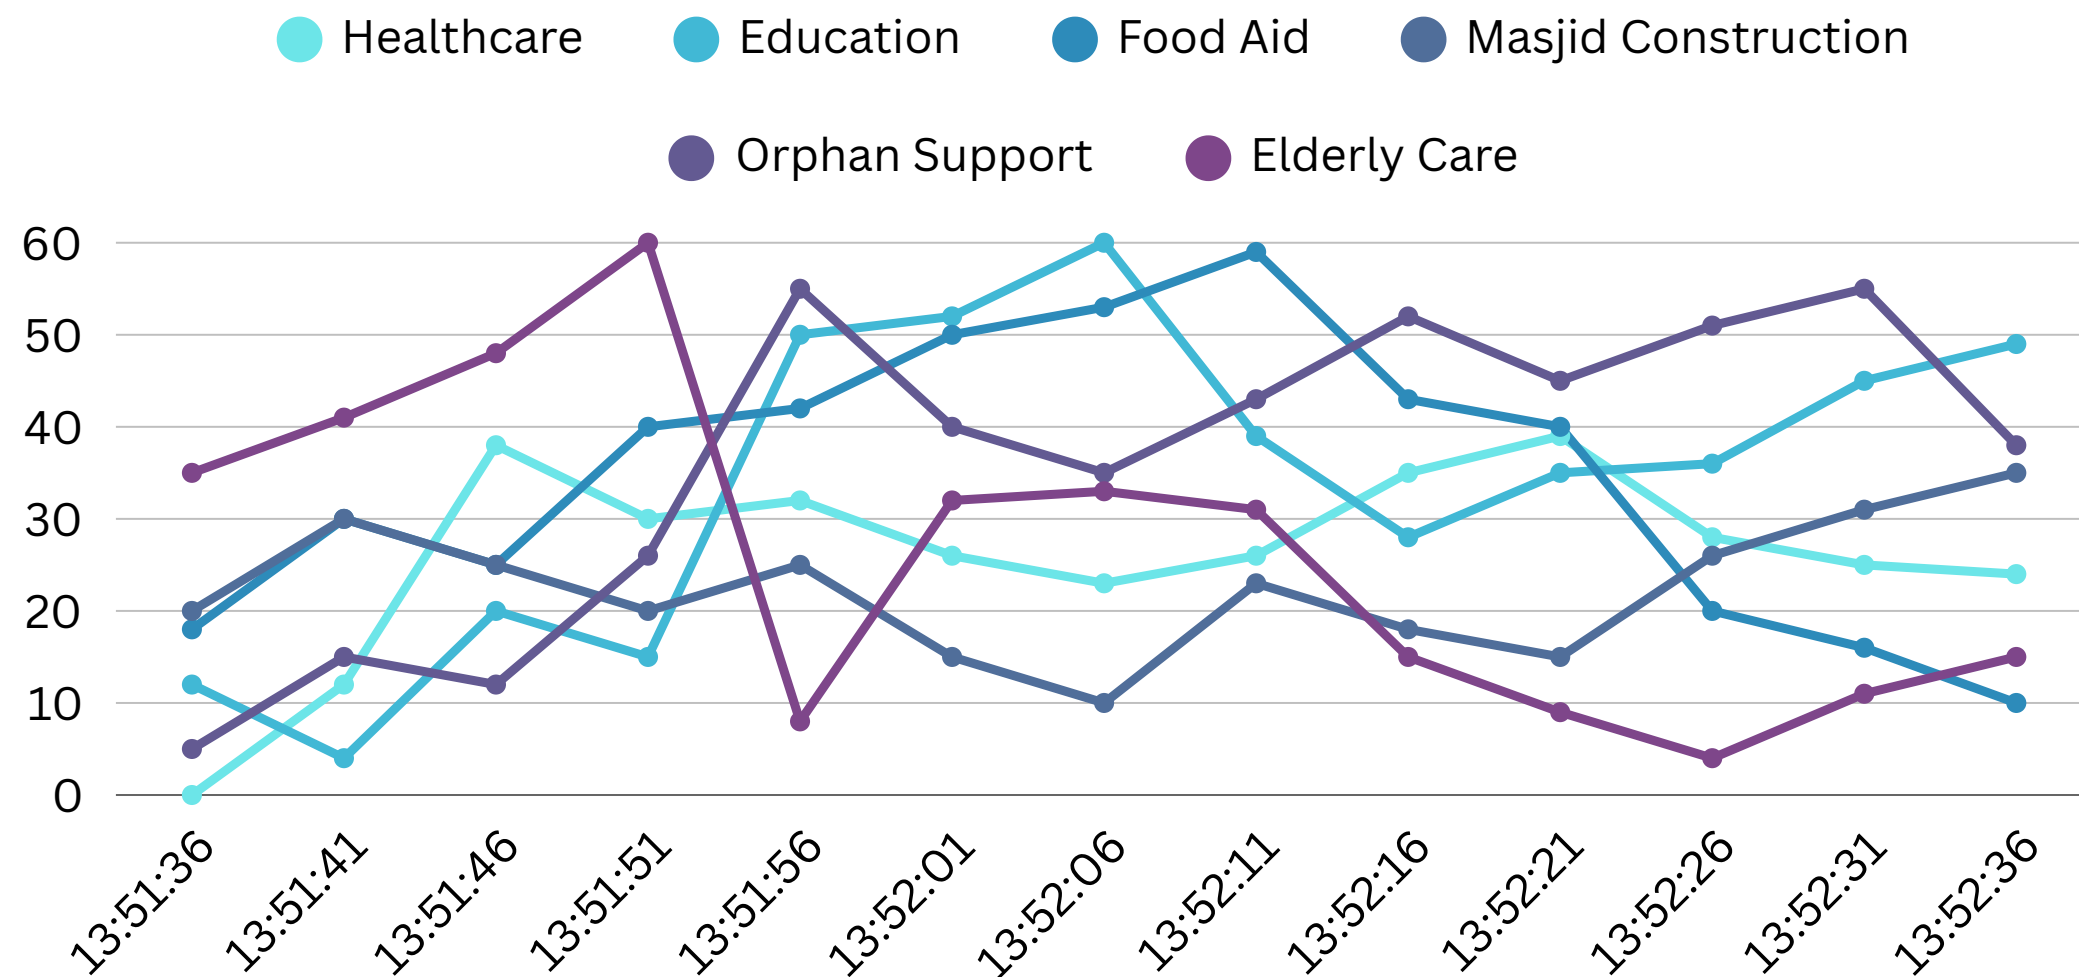

This bar chart provides a comprehensive overview of how each campaign is progressing in terms of:

- Supporters (light teal)
- Fund Raised (sky blue)
- Target Fund (blue)

Each campaign type displays three bars side-by-side for easy comparison.

DATA ANALYTICS & VISUALISATION TOOLS

Campaign Donation Live Analytics

01

Real-Time Tracking:

Donations are updated live, helping admins identify which campaigns are gaining traction at specific times.

02

Trend Analysis:

Admins can observe peak donation times, sudden spikes, or declines in activity for better strategic decisions.

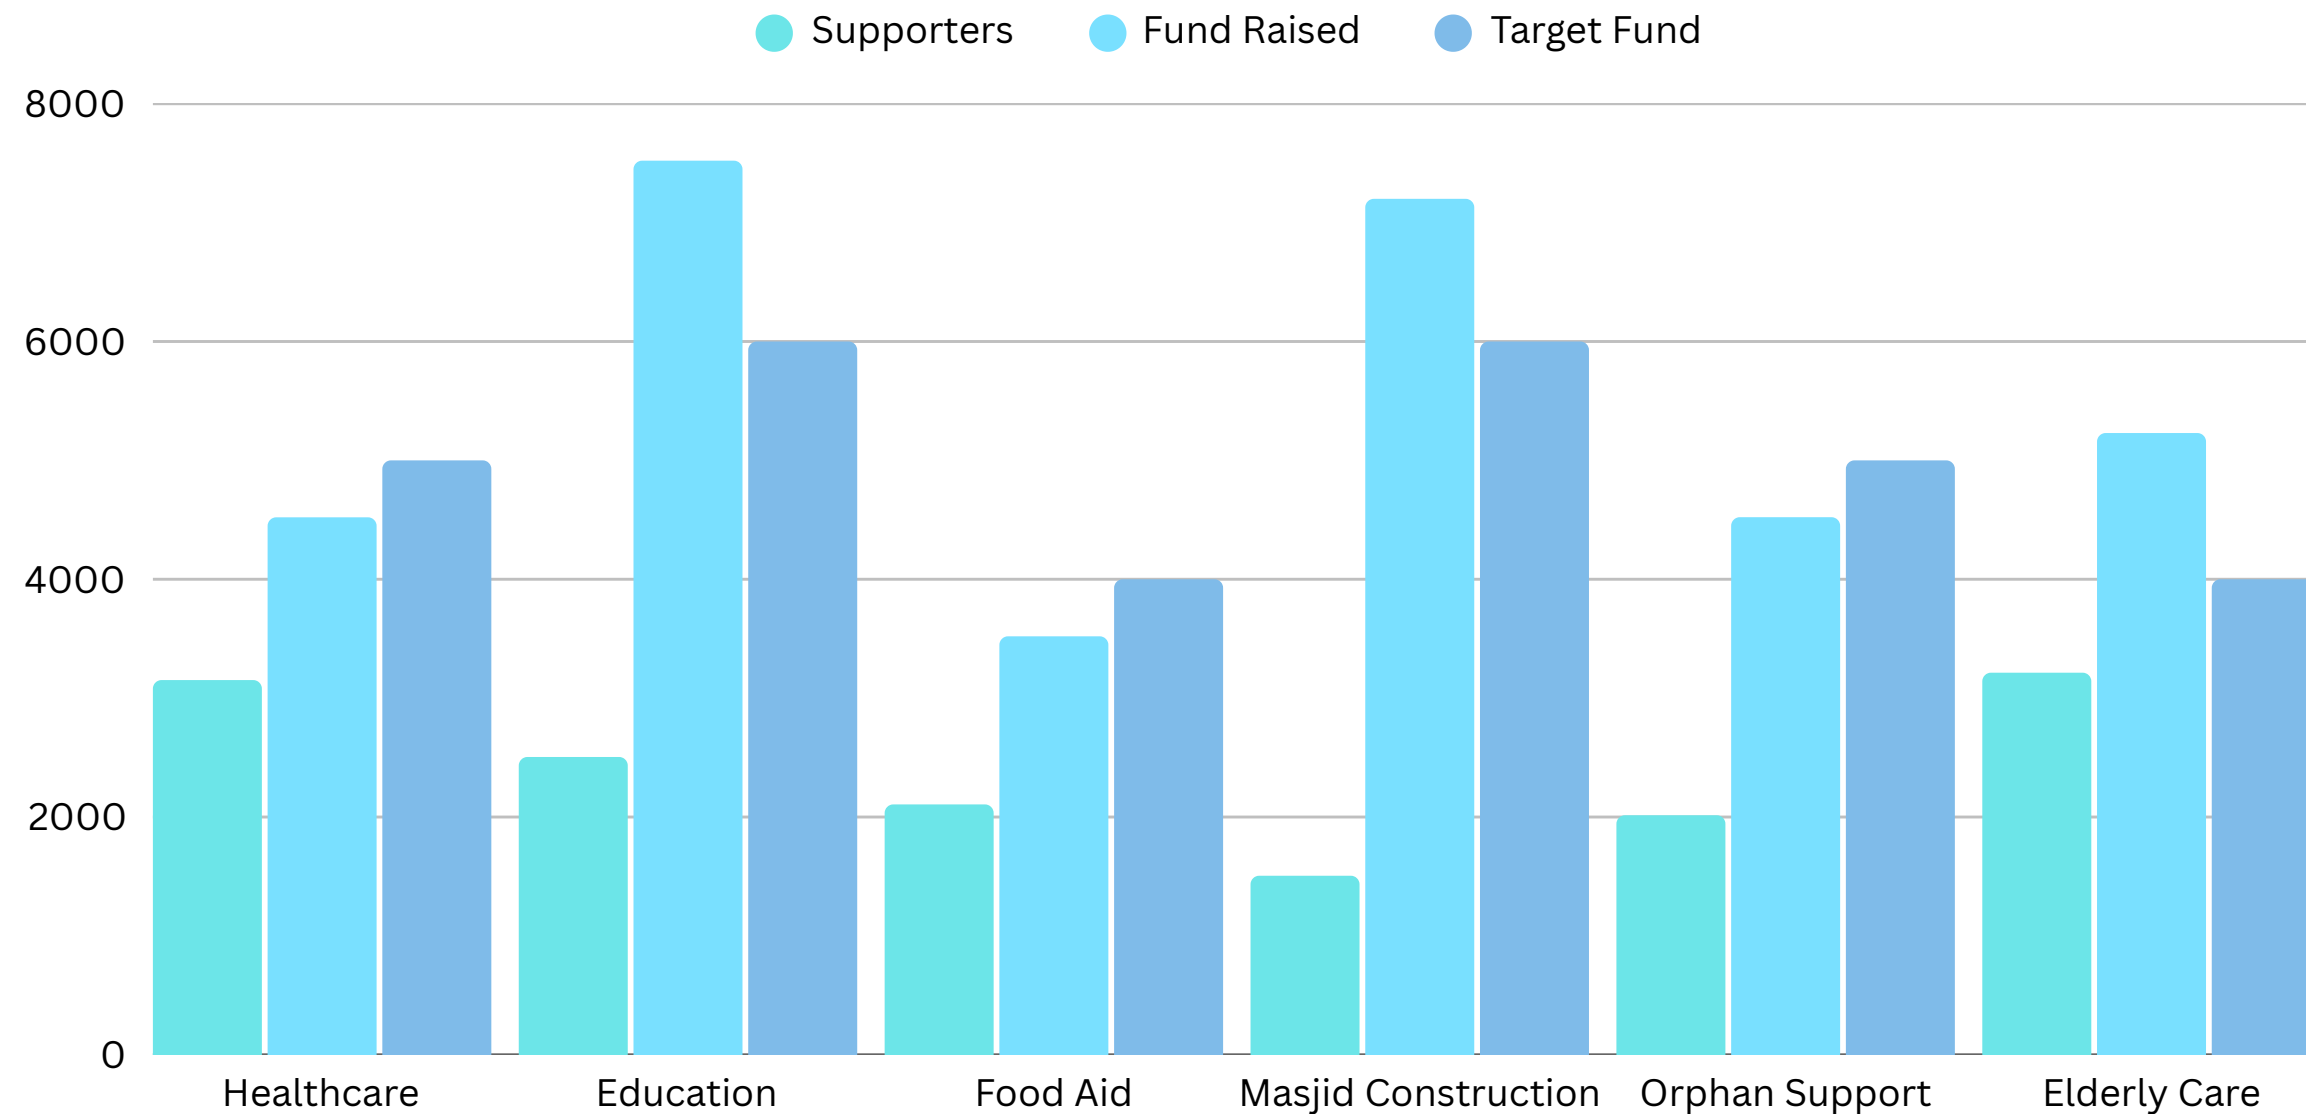

03

User Behavior Insight:

The visualization helps understand donor preferences and behavior over time.

DATA ANALYTICS & VISUALISATION TOOLS

Campaign Performance

Compares Supporters, Fund Raised, and Target Fund for each campaign.

Enables easy performance tracking to see which campaigns are underperforming or exceeding goals.

Assists in data-driven decisions to reallocate resources or boost visibility for lower-performing campaigns.

Makes complex data easy to understand
